## The *minimum* sewer rate service has increased by \$5.00

---

The increased sewer rate became effective January 1, 2017 and will be reflected on the **March billing** as our billing is two months behind the usage month.

On November 6, 2014, the Board voted (Ordinance No. 994) to increase the *minimum* sewer rate over a several year period. Initially, the *minimum* sewer rate was \$15.16 and was increased to \$25.16, effective January 1, 2015.

Thereafter, the minimum sewer rate would increase an additional \$5.00 for the next three (3) years (2016, 2017 and 2018).

**The new *minimum* sewer rate as of January 1, 2017 is \$35.16**
